Profile

I am a third-year student at the Technical University Dublin (Tallght Campus) undertaking a degreea in Bachelor of IT Management. My education has been given me a valuable tool set for an IT-focused role.

As I have worked in a variety customer-focused roles, I have also developed a robust set of soft skills wich I believe would enable me to add value to any team.

My aim is to find an IT focused role where I can use and develop my skills further. I am detail-oriented with excellent communication skills. I enjoy working in target driven environments, and I have a variety of transferrable skills I believe would be valuable to any organization.

I am also a dedicated team player and problem-solver with keen attention in needs, fluent in English and Portuguese.
I have worked in various roles such as Machine Operator, Quality control and Chef.
I grew up in Brazil and now I find myself living a great experience in Ireland for the past 6 years, currently looking to develop my skills further and use them in the new position in the IT area.
